Live Video X-Ray

OpenVision™ is a lightweight live video X-ray imaging system that safely provides real-time video X-ray for hand held use without the need for the evacuation of public areas. It is portable, effective, safe, and fast. Whether using the OpenVision™ in the handheld, inverted, or robot configuration, its ease of deployment allows for rapid X-ray inspection at various angles. A highly sensitive imager with a laser pointer helps to show the radiation hazard area. OpenVision™ can be unpacked, set up, and ready to use in under two minutes.

- Unattended bag and parcel inspection
- Inspection of vehicle panels
- Inspection of walls
- Static/fixed installation
- Checkpoint/Entry point inspection
- Electronic surveillance sweeps

Can be unpacked and set up under two minutes
