

STEALTH SEARCH MIRRORS

ICOR Technology's line of Stealth Search Mirrors are used by EOD technicians, tactical operators, law enforcement agencies, security guards, and facility inspectors around the world. The durable, lightweight Stealth Search Mirrors are ideal for rapid searches under vehicles, around corners, and in ceilings. The ergonomic design, forearm support and foam grip handles provide precise control and minimize operational fatigue. Easy to assemble, maintain, store, and use, ICOR's Stealth Search Mirrors are an easy choice.

Stealth Model PSM Pocket Search Mirror

Our compact pocket Search Mirror is ideal for tactical situations when you want a light-weight, easy to use, and easy to deploy mirror. Perfect for close quarters situations where space is limited or for detailed inspection of automobiles.

Specifications

- 5" X 2.75" (12.5 cm x 7 cm) convex mirror with folding base
- Bright LED light, 15hrs run time
- Quick change standard LR 44 Alkaline Coin Cells (4x)
- Telescoping, non-rotational three-section handle; 6" - 18" (15 cm - 45 cm)
- Length: 6.5" (17 cm)
- Width: 3.5" (9 cm)
- Height: 1.2" (3 cm)
- Weight: 10.5 oz (300 g)

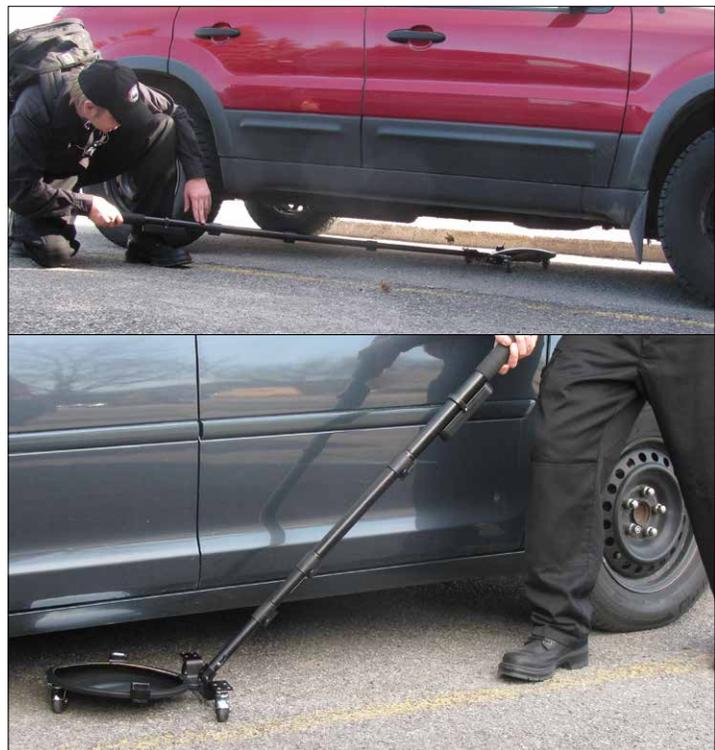

Stealth Model M1000 Under vehicle Search Mirror

The Stealth M1000 Search Mirror offers the best advantage for viewing the undercarriage of vehicles. A large 12" (30 cm) convex mirror along with the aid of a bright 4 LED light assembly, provides the operator an easy and quick view. This mirror was specifically chosen for its low-profile convex shape that provides a more realistic image, unlike the image normally associated with many convex mirrors. To enhance the specially designed convex mirror's image reflection, the mirror is tilted towards the operator, providing a direct, clear view of the image.

Specifications

- 12" Diameter (30 cm) convex mirror tilted for easy viewing
- Bright LED light bar (2x), 15hrs run time
- Quick change standard 9V (2x) batteries located outside the pole
- Foam hand grip
- Deluxe swivel caster (x3)
- Mil spec water tight push button switch
- Telescoping, non-rotational, black anodized pole (4 sections)
- Length: 25" to 66" (63.5 cm to 167 cm), non-rotational telescoping pole (5 pc.)
- Weight: 7.0 lbs (3.2 kg)

STEALTH SEARCH MIRRORS

Stealth Model M2000 5-section Search Mirror

With the added features of LED lights, this mirror pole can be extended up to 80" (203 cm) in length. The M2000 can be maneuvered to view areas that are far-removed or difficult to access, such as attics and false ceilings. The M2000 is perfectly balanced to look around corners using one hand while leaving the other hand free for personal protection.

Specifications

8" (20 cm) convex mirror with swivel base

Bright LED light bar, 15hrs run time

Quick change standard 9V (x2) batteries located outside the pole

Foam hand grip, ergonomic forearm rest

Mil spec water tight push button switch

Telescoping, non-rotational, black anodized pole (5 sections)

Length 30" to 80" (76 cm to 203 cm)

Weight: 4.5 lbs (2.0 kg)

Stealth Model M3000 3-section Search Mirror

Our easy-to-use M3000 is compact and lightweight; consisting of 3-section, telescoping, non-rotational, aluminium poles and extends to 40" (101 cm). With the attached Halogen light, the M3000 is ideal for general use and can be carried anywhere.

Specifications

8" (20 cm) convex mirror with swivel base
