

CALIBER[®] MK4
OPTIONAL FEATURES

CALIBER® Claw Attachment Kit (P/N 10005)

Increase the capabilities of your CALIBER® MK4 robot and keep responders out of harm's way. Set of tools includes: window breaker, tire deflator, finger extension, cutting hook, utility knife, multiple effectors and hook & line accessories, and probing tools.

Auxiliary Claw Camera - MK4 (P/N 11298)

Mounted on the claw of the robot the Auxiliary Claw Camera's adjustable folding arms can be manipulated to have multiple viewing angles of the claw.

OpenVision™ Integration Kit (P/N OV-INKIT-MK4)

The OpenVision™ Integration Kit allows the OpenVision™ live video X-ray imaging system to be easily deployed remotely using the CALIBER® MK4 robot. The live video can be transmitted wirelessly and displayed on the robot's Command and Control Unit. *(Open Vision™ live video X-ray imaging system not included).*

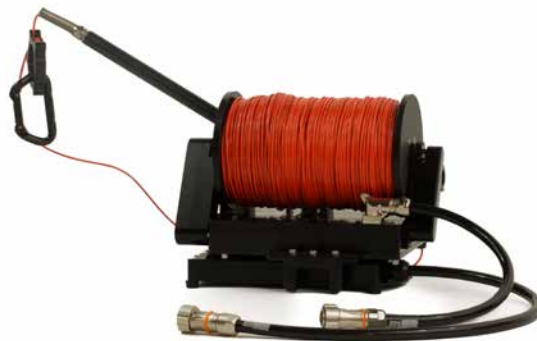

External Truck Mount for RF System (P/N CAL-TK1)

The external truck mounting bracket provides quick deployment of the data and video antennas to the outside of your command vehicle allowing for safe operation of the robot from inside your command vehicle while maximizing the RF operating range. The kit includes up to 15' (4.5m) of shielded cable and quick disconnect brackets for the antennas.

Fiber-Optic Reel (P/N CAL-FR1)

1000' (305m) milspec fiber-optic tether reel with motorized spooler for use as a backup to RF control.

RF Extender (P/N CAL-VEX-4)

Increase the operating RF range of you CALIBER® MK4 with the RF Extender. Mounted on a portable tripod, data and video antennas can be directly connected to the CCU using the 500' Hardwire Tether (included in standard robot package). Key uses include: extending RF range; enabling LOS around corners; and, increasing robot operation in buildings/parking garages by placing RF inside the structure while maintaining a command post outside.

FLIR® Thermal Image Camera (P/N CAL-FLMK4)

The thermal imaging camera displays heat signatures in color. The thermal imaging camera displays heat signatures in color or B/W and is mounted in place of the PTZ camera.

CBRNE/HAZMAT Sensor Platform (P/N CAL-OP020)

Mounted on the arm the CBRNE and HAZMAT Sensor platform is ideal for mounting commercial off the shelf sensors. *(Sensor not included)*

X-Ray Mount (P/N CAL-XR1)

The X-Ray Mount keeps technicians clear of danger by using the CALIBER® MK4 to remotely deploy the portable x-ray system. Mount supports all major X-Ray Sources and Imaging Plates. Please specify type of plate and source to be used at time of purchase. *Note: The xray imager and generator are not included.*

CALIBER® MK4 BATTERY PACK (P/N CAL-EB4)

Lead-acid rechargeable battery pack for the CALIBER® MK4. Four 12V cells totalling to 48V. *Note: The standard MK4 package includes one robot battery.*

CCU Battery Pack (P/N CAL-DCPP)

The CALIBER® MK4 14V DC CCU Power Pack provides power to the robot's CCU during remote operations.

CALIBER® MK4 Charger (CAL-BC4-110, CAL-BC4-220)

The 48V DC robot battery charger for the CALIBER® MK4 can charge the robot's battery while inside the robot and outside. *Note: The standard MK4 package includes one robot battery charger.*

UNIVERSAL DISRUPTER MOUNT (P/N CAL-UDMMK4)

Using interchangeable blocks, the Universal Disrupter Mount supports major disrupters, including: 29mm Neutrex, RE 70, Vulcan, and 29mm RC Neutrex.

Duke Pro Shock Tube Initiator (P/N ESI-RM2-MK4)

Required for initiating the PAN disrupter or Bottle Charges and can be mounted on both the Claw arm and Weapons Arm.

Basic Spare Parts Kit (P/N CAL-SP3)

Contains essential spare parts for the chassis, deck, tracks, wrist, arms, cameras, etc. that are needed for regular maintenance.

Heavy Duty Transit Cases (P/N CAL-OP022)

A Heavy Duty Transit Case that can be used for repeated transport of the CALIBER® MK4 robot with a folding door that functions as a ramp when opened.

The Heavy Duty Water Resistant Accessories Case fits all the robots accessories with quick disconnect wheels.

Aluminum Ramps (P/N CAL-AL0)

Foldable, lightweight ramps for loading and unloading CALIBER® robot into response vehicles.
