

HOOK & LINE RIGGING EQUIPMENT

ICOR Technology's Hook and Line kits are designed to stand up to the rigors of EOD rigging missions.

Engineered from high strength, laser cut, stainless steel, ICOR offers two different Hook and Line models:

ESSENTIAL – Basic single Line

ULTIMATE – Advanced two line

Both kits come equipped with all the necessary tools for semi-remote handling of suspect devices including: hooks, clamps, and pulleys to attach and redirect items; high strength, low stretch color-coded Kevlar® core line; and a multitude of wedges, pitons, karabiners, wires, and ropes to act as anchors.

Swivel Release Pulley

HOOK AND LINE - COMPONENTS

*Note ULTIMATE kit shown

ITEMS	ESSENTIAL		ULTIMATE		ITEMS	ESSENTIAL		ULTIMATE
